I'm not sure this chapter is a big deal for us. If you agree you can just ignore. If not, you know the drill. Thanks. JB

Hello All,

The Drought chapter is available for review, link below. Angela Burgess is the author. If you have particular interest in reviewing this chapter please have comments back to me no later than March 5.

Again, at this stage we are asking review for logic and clarity of argument. Is the chapter logically organized?

Is the argument compelling? Are the dots connected? We are asking for your questions or comments to be included in a memo (link below) not track changes. We will have others doing technical edits at a later time.

[GRSG2015\\_CommentMemo\\_Template](#)

We do not expect all project leaders to review every chapter. However, I will be sending out a similar FYI for each chapter as it becomes available. **Note: Urbanization, Fire, and Fences chapters will be coming up for review within the next several business days.**

Don't hesitate to call if you have any questions.
