---

Hi Gen,

I made the executive decision to give you the actions in California for CED review. Given we don't have a dedicated CA-FWS employee working on the status review, I've been under the assumption NV handles a lot/most of this. I should've given you a head's up, and for that, I apologize. I think that you can prioritize fire and invasive and in the end use that information in the fire chapter (threat amelioration) to your benefit.

I believe this adds approx 50+ actions to your slate, but if you have any concerns or if Ted has any concerns about this additional workload, give me a call.

Take care,

LW
