I asked for comments back ASAP and said we wanted done today. She was fine with the track changes version of the table, but I just wanted to run the "prioritization" by her and JD before finalizing.

Will be sending what I have momentarily.

ID is blowing up again - Jesse and I are going to try to manage this but we may need to punt up. fun!

Thanks. Based on Stephanie's statements yesterday on our call I think we'd do well to get this to Noreen soon. How about we give Mary until 2pm MST then launch?

Its done, and out for review by jesse and Mary. Have heard back from Jesse and incorporated his edits. Have not heard from Mary. What is our timeline?

Matt - I also heard from Jesse, who was fine with the document as a platform to move forward to discussions. I've not heard back from Dawn as she is out this afternoon, but should be in first thing in the morning.

So, except for prescribed fire you have our final answer.

Hey folks -

Thanks for the feedback on the proposed drop-in language from BLM. I took the comments provided on individual sections, and added them to my comments to create the attached document. Please take a look at the comments

provided and let me know if you are o.k with moving this forward for discussion with BLM.

Dawn - I added some text to the a) and b) under prescribed fire. I don't know if it helps and please feel free to correct.

of course, this was desired about a month ago so the sooner you can review and give me feedback the better. Much appreciated!.

P
