Also, we say we reviewed the DIL w/re: FF meetings. Does that by definition capture NPT consistency review?

Thanks. So, to be clear: you/all are recommending I provide Noreen with the narrative document summarizing and prioritizing our concerns and the tabular document containing our actual review of the current drop-in language? I ask be: it is unclear to me in some instances what exactly we are asking BLM to do. Prescribed fire is an example of same. Are we good with the reinsertion of <12" standards?

Stephanie seemed to indicate that's the only item on which they are waiting. I'm for calling out any major issues beyond that but if we are going to ask Boss to hit the stop button on plan finalization/distribution I'm thinking we need to be 110% clear on what we are asking to do (and why).

Make sense?

here you go. Its final unless we hear from Mary. This is intended as a summary and companion piece to the track changes documents I sent earlier this week.

I wouldn't describe the issues in ID to be "technical".....

Sounds good re: the review. Was just gonna ask you for a sneak preview so thanks.

Ah, the Gem State: sheep, potatoes, right-wing extremists, and an apparently never-ending supply of technical issues re: grouse. ;)

I asked for comments back ASAP and said we wanted done today. She was fine with the track changes version of the table, but I just wanted to run the "prioritization" by her and JD before finalizing.

Will be sending what I have momentarily.

ID is blowing up again - Jesse and I are going to try to manage this but we may need to punt up. fun!

Thanks. Based on Stephanie's statements yesterday on our call I think we'd do well to get this to Noreen soon. How about we give Mary until 2pm MST then launch?

Matt - I also heard from Jesse, who was fine with the document as a platform to move forward to discussions. I've not heard back from Dawn as she is out this afternoon, but should be in first thing in the morning.

So, except for prescribed fire you have our final answer.

Hey folks -

Thanks for the feedback on the proposed drop-in language from BLM. I took the comments provided on individual sections, and added them to my comments to create the attached document. Please take a look at the comments provided and let me know if you are o.k with moving this forward for discussion with BLM.

Dawn - I added some text to the a) and b) under prescribed fire. I don't know if it helps and please feel free to correct.

of course, this was desired about a month ago so the sooner you can review and give me feedback the better. Much appreciated!.
