Subject: stronghold maps
Date: Friday, February 27, 2015 2:06:38 PM

hi lara,

a question came up in idaho re: the stronghold maps. It appears that on the rangewide map (from our memo) there are some areas omitted from the strongholds that appear as strongholds in the zoomed in version of the map. For example, in Southwest Idaho, there is only one "stringer" of mapped stronghold area extending toward the Snake River, but in the zoomed in version there are clearly two.

Also, the FWS refuge along the Snake River doesn't appear to be a stronghold in the rangewide map, but is in the zoomed in version. It may just be a scale issue, but wanted to check.

<http://www.fws.gov/greatersagegrouse/documents/ESA%20Process/GRSG%20Strongholds%20memo%20to%20BLM%20and%20USFS%20102714.pdf>

Two hopefully quick requests: 1. There was some question whether these stronghold areas were clipped to the PHMA in Idaho - the memo clearly states that was our intent - can you confirm these areas in Idaho are all within PHMA?

2. Can we get our Idaho FWO the final corporate GIS layer for the strongholds?

Thanks,

--
