Subject: P.S. threat x MZ matrix?
Date: Monday, January 26, 2015 3:08:58 PM

Oh yeah - we need to give Justin that matrix of primary threats x MZ. You got?

Thanks for the quick turn-around. Yeah, we should fix that "matric" typo - I'll pass along to Justin. Process flow chart - I'd say go for it and use at will!

Attached (just .ppt).
Two minor edits - take them or leave them. Spreadsheet looks good, too -- with one exception. In case there's any copy/pasting... can we change 'Matric Value' to Metric Value? It's in all the CSVs and I know it's draft, but just think we should correct it just in case?

Thanks!

-ps- if we're all cool, I might take the flow chart and insert it into the process write-up. I think it really will help some FO folks visualize the process.

Based on our conversation just now, here's v 2.0 of these docs - whatcha think? If you're good with these, I will send Excel file to Justin (and plan to chew over with him Wednesday).

Thanks -
H

Def. agree re: terminology - if "certify" raises red flags, let's use something else. I like "evaluate" or "review." Let's pick a word and stick to it.

I piggy-backed my edits on Holly's versions. I made my changes on the .ppt in blue. Just not sure we should use the term 'certification' in a process where it might be deferred. It's incredibly picky of me, but I'm nervous about some in the FOs being confused and mixing terminology. Using terms in a similar way seems to be an issue on several of our status review fronts, I'm realizing.

The only other thing, and I'm not sure if we need to specify is that it'd be nice to have all metrics summed up for the FOs. Any time a query is run (canned or otherwise) it'd be nice to have a line that reads something like "...37 projects totaling 379,421 acres..."

Hi Kathy,

Thanks for getting all this down! I zoomed through both docs, and some quick thoughts are attached -- see what you think.

Hi Holly and Lief, here's my efforts to capture our call yesterday on what we want reports to look like and the process for getting info certified by the ES field offices, uploaded in the CED, used in MZ reports, and then updated over time.

Note I have two tabs in the excel file - one for the rapid assessment certification process, and one for the refined reports.

I look forward to hearing your thoughts on improving this, making sure we're all on the same page, and then getting Justin started on it.

Happy editing and commenting!
