Thanks, may I please have it together with a comprehensive package of background material, talking points, copy of ppt, etc? If you provide to Kristine, she can put it in my folder.

Noreen,

As mentioned, please see attached the subject info for your awareness/internal use at WAFWA EOC later this week. Per our earlier conversation, Mike Gregg will update this document on the heels of this week's NEPA kickoff meeting and then circulate it to ARS, BLM and other federal partners so we will all have one, common update to use for SGTF and beyond. Please let me know if you have any immediate questions on this item. Thanks.

Matt

Matt/Jesse,

Attached is a new update on Battalion Pro. Thought I would get it out so you had a bit of time to review before Monday. If you have edits/comments let me know. If not you can run with it. Talk to you on Monday and have a great new year.

Thanks,

Mike.
