Somebody from WY at s-g conference said publicly that WY was 84% in compliance with core strategy. Also, we say on Douglas not in compliance with 5% disturbance. WEG says 50% of core not in compliance with dust caps.

**Subject:** 16%

Please let me know what you find out about the 16% not in compliance.

Is this perhaps a reference to the Douglas core area?

And then also the Molvar claim that 50% of core areas have exceeded the cap.
