Gut reaction....

This was insane amounts of work-

Argg...

Hi,

Take a look - it's messy right now, but in the end it show that if we review 8% (327) of the records, we'll capture 47% of the associated acreage provided (not of the occupied range). But still a peak at the juice to be squeezed.

It's the "working" tab - the rest is noise for now.
