All,

Below a brief update of where we're at.

BLM: Still processing batch upload. Will confirm this week that all data has been submitted from field to NOC so it can be processed and sent to USGS. Anticipating 1,000s of records, likely more than 3k.

USFS: Just received 78 records for batch upload

NRCS: Still awaiting their data (summarized by population, in- and out-of-PAC).

States:

ND: 0 records, began process last week.

SD: 2 records

MT: 10 records, continuing to provide data

WY: Batch Upload: Originally submitted >700. However, >250 efforts are lacking effectiveness information.

CO: ~100 records and counting

UT: Found out the week before Christmas that Utah was planning on doing a batch upload (with no prior communication). Anticipating >400 records (state, fed, etc. collaborative).

NV: 0 records. Still waiting on BLM-NV to see what's left to enter as most projects were collaborative

ID: 78 records from multiple state agencies and counting

OR: 43 records from multiple state agencies plus a batch upload yet to be completed with approx 70 projects

WA: Not playing
CA: 0 records.

From the states, we're currently sitting at approx 250 projects, and that should expand by close to 1,000 after UT, OR, and WY batch submissions are uploaded. From industry and NGOs, we've got about 115 records.

LW
