Hi All,

Lots to discuss next week so I added a 1/2hr to calendar. Hopefully that works for folks.

Agenda

--Compounding effects

Before meeting, please take the time to fill out compounding effects table for your threat if you haven't already. I would like to have a serious discussion about what is being considered and does it match across threats.

--Foreseeable Future

Please review document below for foreseeable future discussion. I talked a bit more with Nicole and want to get us all on the same page.

Also, PLEASE remember to fill out table below. Getting chapters complete is higher priority right now, but don't forget. This WILL be in the Species Report and is info you/we will need for any briefings.
