Thanks. I think for this meeting she'll be alright with ecopies. Thanks.

Matt,
Should I print these for Noreen hardcopy? I know she generally prefers the really long ones to be electronic only.

Folks,

This is to confirm the subject meeting/call. For those of us in the RO, we'll meet in Noreen's conference room. For those of you calling in, please use the below line. Our working agenda is as follows:

- Stepping down SO 3336 to ensure we are taking actions that have the greatest likelihood of decreasing recent historical fire frequency in the Great Basin;
- How lead entities for SO 3336 can best share information to FWS that will be useful in our status review process and analysis as an outcome of SO 3336; and,
- Other current federal planning issues.

I've attached 2 items:

- A current draft of the SO 3336 Implementation Plan: **please close hold**; this document is still under development.
- A recent WAFWA document that relates to SO 3336 implementation scheduled for release later this week (please pardon any cross-postings and **please don't distribute broadly at this time**).

Other relevant agenda items and materials welcome in advance of tomorrow's meeting. Thanks.

Matt
