---

Bridget is out. Talk to Mike Wrigley (Detail to Seth's position while he's on paternity leave) and Maria Boroja. I'll take a look. Thanks.

Here's what I've drafted, but happy to modify.

[https://portal.doi.net/usfws/SG/docs/20140515\\_GSGoverview\\_ESbios.pptx](https://portal.doi.net/usfws/SG/docs/20140515_GSGoverview_ESbios.pptx)

Here's what included (I smushed what I think you're presenting, with what I was planning to present - I can also cut mine down considerably if needed):

- CURRENT - the jelly bean slides (the series, but you can scrap whatever seems extraneous),
- HISTORY - the timeline,
- 2015 APPROACH - a couple of slides related to our process goals, the modular approach, and a somewhat modified slide showing how we intend to filter data so we're using the most important pieces to understand GSG status.
- TIMELINE - I added a new slide with a simplified (quarterly) timeline showing now to Sept. 2015.

I'll work with Bridget to set up a Webinar for Thursday.

Happy to modify this presentation if it's not on target - just let me know!

Thanks!

K

We're on to provide an overview of GSG issues this week to all the R6 ESA biologists.

The bulk of the time will be on the BLM/FS, NRCS, State and other efforts piece with you giving a quick overview of the status review schedule and process. If we're going to do a webinar, could you set that up? I expect to talk mostly and the blob slide with all the different efforts and the slide with the previous decisions is probably all I need. Probably 6 slides total. Doable by Wednesday?
