Subject: Re: Revised version of GRSG DEIS Comments
Date: Monday, November 18, 2013 8:36:26 AM

Terry,

It doesn't sound like we will hear anything from Pat before we meet with BLM, so please clean up the comment letter, removing all comments and any editorial language/questions that are still within the text. Do you have additional changes to make based on your conversations with BLM? (see placeholder in Ag. conversion section) If so, add it to the next version. Also, add a cover letter to BLM, so I will have that to send to the FMT this afternoon or tomorrow morning. We don't need the BP until later. As far as the table goes, I would recommend making any changes based on conversations with BLM now, and we will share that version with BLM this afternoon. If we get comments from Pat this afternoon or evening, we can incorporate those prior to sharing the Table with the FMT. Thanks.

Susan

Hi Pat,

I incorporated your comments then sent to Creed for his review and incorporated his additional comments. I am attaching a track changes version and a clean version with comment bubbles still attached. PLEASE review my comment bubbles as I have questions for you and a couple explanations where I didn't entirely accept your comment. PLEASE call me as early as possible to discuss my remaining questions after your calls/meetings are done tomorrow afternoon as I have that call with BLM Supervisors/State Office at 3:30 and would like to have this even more complete for that call. It took me longer than I thought to get through the comments so am still working on completing the matrix and the cover letter summarizing the biggest of our big comments. Will come back after dinner for those. I have to do a BP for Noreen too, any interest in seeing that?
