On the other hand – lalalalalala – maybe it's better if I DON'T get his emails!

Quincy, can you add Betsy Herrmann to your email list? That way if I'm not in the office, at least one of us will see your deadlines!

Thanks.

Laura.

All,

I wanted to send an update regarding the upcoming two-week review of the Utah Sub-Region Sage-Grouse Administrative Draft EIS/Draft RMP Amendments. The document will be provided for all cooperating agencies to review on June 10th. We are currently working on how to transmit the document to you as fast as possible. Given the large size, email will not be an option.

All comments need to be provided by close-of-business June 24th. While this review period is a little later than previously planned (for a variety of reasons), I wanted to make sure to send this reminder so that everyone was aware of the new dates for review and could schedule accordingly.

This review will include all chapters of the EIS, though we will be specifically seeking input from the cooperating agencies on the existing environment and impact analysis. More detail about this review (what we're specifically looking for from the cooperating agencies, what to be aware of in the document, etc.) will be provided in a cover-letter when the document is distributed.

I look forward to gaining your input.
