# National Elk Refuge

## Hunting Information

The Blue Goose is the symbol of the National Wildlife Refuge System, a network of lands and waters managed for the benefit of wildlife and people.

**Welcome**

The National Elk Refuge was established in 1912 in Jackson, Wyoming as a winter game elk reserve to protect winter habitat for migratory elk. The 24,700-acre Refuge supports a variety of plants and animals with its grasslands, wetlands, and forests.

**Hours**

Shooting hours are ½ hour before legal sunrise to ½ hour after legal sunset.

**Firearms**

Persons possessing, transporting, or carrying firearms on National Wildlife Refuge System lands must comply with all provisions of federal, State, and local law. Persons may only use (discharge) firearms in accordance with refuge regulations (50 CFR 27.42 and specific Refuge regulations in 50 CFR Part 32).

**General Hunting Regulations**

Hunting regulations are designed to provide safe recreational opportunities through wise use of renewable wildlife resources. Hunting is permitted in accordance with Federal regulations governing public use on National Wildlife Refuges as set forth in Title 50 of the Code of Federal Regulations. Hunting will be in accordance with applicable State of Wyoming regulations subject to the conditions stated below. Brochures may be obtained by mail, at the Refuge headquarters, or from the Refuge website.

**Who manages hunting on the National Elk Refuge?**

Hunting on the National Elk Refuge (Refuge) is managed through a cooperative effort between the Refuge, Grand Teton National Park, and Wyoming Game & Fish Department (WGFD), with the goal of maintaining the WGFD herd size objective. The Refuge posts information related to the Refuge hunting programs on its website: www.fws.gov/refuge/national\_elk\_refuge

**What must I have while hunting on the Refuge?**

- Refuge permit & WGFD hunting license for the species you are hunting. **Note:** The applicant must possess a full price license to apply for the Any Elk and Youth Elk Hunt periods.
- WGFD Conservation Stamp (if required by WGFD)
- WGFD Elk Special Management Permit (if hunting elk)
- Hunter Safety Certificate (if required by WGFD)
- All persons hunting big game during an open firearm season shall wear in a visible manner two (2) or more exterior garments of a fluorescent orange or fluorescent pink color that is visible 360 degrees and that shall include a hat and one of the following: shirt, jacket, coat, vest, or sweater. Fluorescent orange or fluorescent pink camouflage is legal.

**How do I get a permit for hunting on the Refuge?**

The application process for a Refuge permit for hunting is done online via the WGFD Access Yes! Hunter Management Area Program.

**What Refuge-specific laws regulate hunting on the Refuge?**

In addition to all Federal and WGFD requirements, the following Refuge specific regulations are enforced. Hunters must be knowledgeable of all regulations prior to hunting as violations may result in forfeiture of the animal, criminal penalties, and permit revocation.

**Hunting activities prohibited on the Refuge**

- Intentional herding or harassment of wildlife.
- Discharging firearms other than for lawful hunting (i.e. target shooting and sighting in).
- Indiscriminate shooting, shooting multiple times into a running herd, or injuring multiple animals.

- Hunters may not leave animal parts, including gut piles and carcasses, within 300 feet of parking areas and public roads.
- No game retrieval is allowed through Grand Teton National Park. This includes retrieval to Gros Ventre parking areas at Milepost 1.1 and 2.3. If retrieving to Highway 89 lot, hunters must bring their vehicle inside the gate to load the animal at the Highway 89 lot.

### What should I do before I pursue an injured animal off or onto the Refuge?

Prior to December 1, if an injured animal crosses from the National Forest onto the Refuge, or if retrieval would be more efficient through the Refuge hunters should call the Refuge Hunt Information Line and leave a message describing their situation and plan for recovery.

Following this notice, the hunter may pursue or retrieve the animal as planned, giving consideration to limiting any resource damage. Beginning December 1, Forest Service lands adjacent to the Refuge are closed to all human presence per winter travel restrictions.

If the injured animal crosses into Grand Teton National Park, the hunter must immediately notify Teton Interagency Dispatch at 307 / 739-3301.
