

Erie National Wildlife Refuge falls within the path of totality, and we have compiled a list of locations on the refuge that will be prime viewing areas for observing this exciting celestial event!

The Refuge will ***not*** be holding an organized program, however, we have compiled information on where to safely enjoy the eclipse while on the refuge below:

**Sugar Lake Division:**

1. The Refuge Headquarters & adjacent parking area.
2. The Deer Run Trail, located off Boland Road.

**Seneca Division:**

3. The Information Kiosk parking area located at the intersection of State Route 408 and Swamp Road.

**What to bring:** Viewing is outdoors, so dress appropriately for the forecasted weather. Bring water, snacks, chairs, and blankets if you would like to sit outside. There are a limited number of picnic tables available for use next to the Refuge Headquarters parking area.

**In order to ensure visitor and wildlife/habitat safety and well-being, please note the following:**

- The Refuge is open sunrise to sunset.
- Outdoor vault toilets are located at:
  - The Refuge Headquarters office, adjacent to the Tsuga Trail head.
  - The Pool K parking lot of the Deer Run Trailhead, located across from the fishing pier.
- Please do not park/stay/camp overnight; the refuge is closed overnight.
- You can view the eclipse from the Refuge Headquarters parking area, walking trails, and overlooks only.
- Do not go beyond any "Area Closed" signs or in any areas marked for migratory bird nesting.
- Please keep access to public roads, refuge roads, and parking areas clear.
- If a parking area is full, please move on to another area in order to avoid overcrowding.

For additional information on amenities available at the refuge, check out our map:
