Pasted below is Brandon's response:

"Hello Andrew,
I will be out of the office until Thursday. I will compile the lat longs and send you the coordinates this week. "

That is only going to include the trail camera coordinates and , not include Matt's request of where the additional fence crossing locations were decided. I'm going to have to go to Marc for that information. I won't be reaching out to Marc until I get data from Brandon.

Thanks,

Andrew Pettibone

Hi Stacy,

Brandon from Blackfeet Fish & Wildlife still has not provided Andrew the camera and fence crossing data. We have been waiting patiently to try and maintain a positive relationship there. We can request it again if you would like?

Nick

Update below:

- Map - Andrew Pettibone just received the rough **gate** data from Marc (Ranch Manager), and will be converting it to spatial data soon. Andrew requested the **camera** and **fence crossing** information from Brandon (Blackfeet Fish & Wildlife) on 11/2 and we are still waiting patiently to receive. Once we do, we will convert to digital data and work with realty to update the map. As an FYI, the data we are receiving is mostly hand drawn and needs geo-referenced and verified.
- FOIA - We are targeting a December 15th end date to provide the records. Project Leader Ben Gilles, who has many of the records, has been on annual leave. Once he returns and locates the records, we will be able to provide the Tribe with documents.

Item to be aware of: Marc has stopped returning Andrew's phone

calls and emails as a result of all of these meetings at various levels. This has made it difficult to acquire the requested information in a timely matter.

Can you provide a status update on both the FOIA as well as map update?
Thanks.

I checked in on progress this morning. As of Friday, Brandon and Marc have not connected. I know this is a busy time of year. Is there a timeframe when we anticipate Brandon will reach out to schedule a meeting? Thanks.

Be well,
Jonathan
