yes

Explanation

The Pink House is in imminent danger of being demolished, and the substantial public outcry and major media coverage warrants knowing this information in time. I ask that my request receive expedited processing because of the critical timeline set by FWS to demolish this asset of the people of United States. Support the Pink House is trying to save the Pink House imminently by informing the public at regular meetings and the media. The goal to provide information and secure a mutually beneficial solution before the house is demolished. The information/documentation requested here is urgent as it is pertinent for informing the public at upcoming meetings. This information is both critical and vital to secure a solution supported by the community and others and also serves the mission of the Parker River National Wildlife Refuge.
