Mark,

I've reviewed SAS and see several parcels that could be potentials from ready to close to appraisal not ordered. At this point I think we are still early in the process and need to first nail down the Pink House value with an appraisal. Once we have a better idea of value and time line, I am confident we can identify a parcel that will meet the need. On another point I think it is critical we have assurance the money to do this project is "in the bank".

I'd be happy to cover this call alone or with you.

Bill

**Subject:** Fw: Meeting with Pink House group

Bill: I think one of us should be on the call - do you have a preference? Have you had a chance to look at potential properties?

**Subject:** Meeting with Pink House group

Hi Mark and Bill,

Thanks again for your time with all things Pink House land swap. I wanted to make you aware that Congressman Moulton's office is keen on setting up a meeting between us and the Pink House group to walk through next steps. The tentative date/time is **September 25 at 2:00pm**. My hope is that prior to this call we will have identified alternative parcel(s) for a more comparable land exchange (or, if not, just describe what such process may look like for them).

Would one or both of you be available for this meeting (if indeed this would be the time to bring you in)?

Thank you,

Matt
