Thank you David. I know we talked a while back about making sure Jen reviewed and edited these - did she get to do that? The Pink House submission didn't fully describe the extensive congressional outreach (including the September call where they acknowledged that we need to move forward). I've edited that one - I know it went in last week while I was out but think it's important to edit to show DOI that we already have congressional support (or at least acknowledgement that they understand).

Can you ask Jen and/or NWRS to read my edits to make sure I captured accurately?
