Good morning,

Oh my - so many twists and turns with this. Only other thing that may be worth mentioning is (b) (5) inquiry/complaint, (former STPH member who supports demolition). The refuge responded to her in a letter dated March 2020. I haven't heard anything from her since then, but I'd be willing to bet she still supports demo given how strongly she felt about it 3 years ago.

Hi Bill and Sharon!

Bill, I hope the summer has thus far treated you well (all 2 days of it). Here it's been cold and rainy -- which I am 100% OK with! All things relatively quiet on the refuge... so far... at least until it heats up, and especially until the below decision goes public...

I was hoping both of you might review this draft briefing paper for accuracy and to make sure I did not omit any important details before I submit it to the RO. Thankfully, you both kept very complete records in the P drive which helped immensely with the background and timeline. But I am very likely missing one or more crucial details that you may immediately think of.

Thanks in advance and enjoy your weekends!

Matt
