

# 2024 Eastern Neck NWR Deer Hunt Regulations

## **Eastern Neck National Wildlife Refuge**

Eastern Neck National Wildlife Refuge (refuge) is part of the Chesapeake Marshlands National Wildlife Refuge Complex and is one of over 565 National Wildlife Refuges in the United States. The primary objective of a National Wildlife Refuge is to provide habitat for the conservation and protection of wildlife. Carefully managed hunts maintain wildlife populations at a level compatible with the environment, provide recreational opportunities, and permit the use of a valuable renewable resource.

Your hunt permit authorizes you to take deer only. Taking and/or collecting any other wildlife or plants, including shed antlers, is a violation of refuge regulations. Harming or needlessly disturbing any other wildlife is a violation of refuge regulations and is cause for prosecution. The regulations listed on this page supplement the general regulations which govern hunting on national wildlife refuges set forth in Title 50: Part 32, Code of Federal Regulations (<https://www.ecfr.gov/>). Hunting will be in accordance with [State regulations](#) and subject to the following conditions and regulations. Failure to abide by any Federal laws, State laws, or the terms and conditions under which a hunt permit is issued may result in the revocation of the permit and hunting privileges.

## **Application Guidelines**

- Beginning August 14, 2024, applications will be available online at [www.recreation.gov](http://www.recreation.gov) or by phone (877) 444-6777 through Recreation.Gov.

Passes can be obtained at the Blackwater NWR visitor center and other select federal visitor centers, or online at the following link: <https://store.usgs.gov/access-pass>.
- All permits are non-transferable.
