I left a voicemail for Sean, but wanted to follow up with a quick email since he is out of the office until later this week. We are headed into our busy season, and I am trying to make sure I have room on my calendar for any upcoming inter-agency coordination. It would be really helpful if you could let me know when you might be requesting USFWS input on how the potential lease could affect the use of the tideland easement for the purpose of a wildlife refuge?

Hope you are having a wonderful week.
