Thank you. I don't want to add any additional work for you. I just thought it was a prepared document worthwhile reading as I learn more about the issues surround the Refuge. If that is not the case, please let me know.

Thanks!

Hi Jennifer,

In my research to better understand the Refuge and bird surveys, I bumped into this publication = "Dungeness NWR: Initial Survey Instructions for Avian Shoreline Survey." Although it says it's a public document, it requested that I email. Below is the email I got in response. Is this something that is available for us to look at? I'm just looking to learn as much as possible around this topic.
