Subject: Dungeness Aquaculture
Date: Thursday, December 20, 2018 2:17:50 PM

The Jamestown Tribe has applied for Army Corps and County permits to operate an oyster aquaculture farm within the boundaries of Dungeness NWR. We have a briefing with Robin on January 8, and may need a little GIS assistance to create a couple of professional maps of the site. Do any of your GIS whizzes have any extra moments that could be stolen for this purpose? Sorry for the late notice, we are responding to a very short deadline.

Thanks,
Jennifer
