Jennifer:

Still plowing thru files. Need to get into boxed files from our move & the only person who knows where those got off to is out but in tomorrow.

So far, theres some information on the establishment of the Refuge & a Solicitors Opinion on fishing which does not mention shellfish,,,thinking you & Frank may have this already...by Jean Lowman 1980?

Did find the Jamestown-S'Klallam's 1855 Point no Point Treaty which does mention shellfish...

http://www.jamestowntribe.org/govdocs/gov_treaty.htm

...will leave it to Frank as to how that may impact your issues.

Hope to find the file I really need to get into tomorrow...which btw has our Realty file designation of

State of Washington (2M1-4)

,...so maybe that reference may help you find stuff.

Anyhow...hope to squeeze some more research in tomorrow if I can get into that box and find that file!

Tom

btw...heres the Oregonian's log on their articles on the militia occupation at Malheur...militia also does a 11am video conference which Oregonian includes...
