Assigned it to our volunteer Darrin. Unfortunately, he's out next week and won't be able to do much til week of 4/16. I asked him for a status update on 4/19, and will pass along then.

Cheers-

Thank you Curtis!

1-2 weeks would be safe. If your volunteer could let me know which sources are not available as soon as possible, I can place a request to NCTC. Just looking for the low hanging fruit from Ryan's copious files

Thank you again,
Sue

I'll put somebody on this. We're ES, so everything is deadline driven.

By when do you need these?

Hi there Curtis,

I've been working with Jennifer on our comments for the Jamestown S'Klallam Tribe's commercial aquaculture permit and borrowed heavily from Ryan's excellent Biological Opinion.

Jennifer mentioned that you or someone in your office might be able to help me locate some missing refs that were originally in Ryan's Biol Op. If so, Thank You! I'd really like to make sure the record is complete as soon as possible and was able to track down most online, but the remaining 9 in the attached list are quite cagey ;) Any help would be most appreciated!

Best,

Sue
