---

That is so weird, especially since I created the attachment in Adobe. It had the same strange symbols in my saved copy. I think I've fixed all the issues in the attached doc, but let me know if it shows up with any strange issues. I also added some additional information I grabbed since sending the first doc.

Let me know what other information would be helpful for the review.

Thanks Jennifer,

The RCRC helps a lot. However, your Appendix A to the RCRC came in with weird "X- marks" blocking-out several characters, making it difficult to read key info like the number of times an ATV is used per year, etc. Perhaps the hiccup is associated with the pdf process?

Virginia, Pat, and I had a good Teams call with Allie yesterday. I am hopeful she will work with us on the Section 106 needs for the activities on Dungeness NWR and Protection Island. We will draft a formal "initiating Section 106" letter to the Tribe/Allie, over the next couple days and share a draft with you before sending it. But we need some of the info in Appendix A, please check it and re-send.

It's not perfect, but it should provide some helpful info to get started. I'm available this afternoon (except 1-1:30), if you have questions.
