Gerry,

You should get an email from AMRDEC Safe, which provides a link and password to download the SCI Biosecurity Plan. Per our discussion, this is just an unsigned plan of what we think is appropriate and we are not committed to all measures. We are working on pulling out what is feasible for a Navy instruction. Hope it helps you!

Subject: [Non-DoD Source] Request copy of San Clemente I. biosecurity plan

Hi Melissa,

It was great to have some face to face at Monday's biosecurity workshop. As we discussed, I am requesting a copy of the San Clemente Island biosecurity plan. We are working on a biosecurity plan for the Farallon Islands National Wildlife Refuge and are looking for as many examples as we can find. Our use of the San Clemente plan would be for reference only and we would not distribute the document or cite it without your written permission.

Thanks for your consideration.

Gerry
