Subject: Farallon Salamander Power Analysis - funding available
Date: Tuesday, May 26, 2015 2:56:09 PM
Importance: High

Hi Gerry,

I wanted to let you know that I&M is interested in funding the power analysis (10K) for the arboreal salamander protocol. I looked at the Point Blue proposal again and realized that the proposal only focuses on the juvenile salamanders. I thought we had talked about doing power analysis for both the juveniles and adults to test the new design and the expanded sampling area. Let me know if you were only looking for the power analysis for the juveniles or if it was for both. I just want to make sure we all know what we are asking for so there are no surprises later.

I will be out of the office the week of June 1st but will try to check email.

Thanks

Kaylene
