---

Hi Gerry and Russ,

I have been compiling a long list of tasks that need to be completed for inclusion in the draft EIS. There are several deliverables that we need from you to complete all of our tasks, so I have included a list of those tasks to this email for your review. I assigned a lead to each task but would like your feedback to make certain that you are the appropriate person to lead the given task. We can discuss at our next meeting when you think you will have those deliverables available for inclusion in the EIS. At this time we are looking at having a draft complete and ready for the review process by the beginning of June, so we will need all deliverables at least a few weeks prior to the initiation of our review process. Thanks for all of your help in keeping the EIS moving forward.

Gabrielle
