Gerry:

#4, yes, this item is leftover from old contract....it will not be billed in this one..just put in here to ensure it gets done.

For #7, ...it is the only other info out there before our study.

Gabrielle,

Sorry to take so long getting this back to you. I approve of the contract.

A couple comments:

Task #4: Why do you need to pay to have them make clarifications on previous report? Sounds like this section wasn't written very well. Modifications such as this should already be included as part of such a contract.

#7: Why were they using Palmyra degradation data?!

Gerry

Subject: Gull Risk Assessment Contract

Hi Gerry,

I know you are slammed with EIS related work, but we need you to review the scope of work changes to the gull risk assessment contract with Stantec, LLC. Can you please review this revised contract and provide any feedback to me by next Monday? The contractor is available to work on this risk assessment during the month of June, but will be extremely busy in July and August. For this reason, we are trying to expedite the contract negotiations and get this assessment going. Thanks again,

Gabrielle
