Hey Gerry,

One more thing from the cumulative impacts analysis. Can you please provide a little detail about the following construction projects and their impacts on the islands resources?

(3 houses, 2 of which remain, and Powerhouse, which remains. U.S. Navy built several structures, only one of which remains (Carpenter Shed)). Thanks,

Gabrielle

Subject: Question for Cumulative Impacts Section of EIS

Hi Gerry,

I am editing the cumulative impacts section of chapter 4 in the EIS and have a question about a couple of construction projects. Can you please provide some detail about the habitat structure construction project and the Murre wall construction project? Also, can you please fax the signed ATF letter to 831-459-1476 before 1pm this afternoon? Thank you,

Gabrielle
