Gerry,

Thank you for the opportunity to review Draft Final Report QA-2688, "An assessment of the potential hazards of anticoagulant rodenticides to Plethodontid salamanders." My comments are attached as a Word document. Please let me know if you'd prefer a different format, or if any comments need clarification.

I assumed that your office would be working with the author on preferred style and copyediting, so the comments here address only scientific content.

Best wishes,  
Bethany
