Farallon Mouse Project -DRAFT-2020-0214.pdf;

Hi Gerry –

The new slides were easier to create than I thought – so here is a PDF of the presentation. The full PowerPoint can be downloaded from Hightail: <https://spaces.hightail.com/space/Pt97A0Izy7>  
New slides are 14, 15, and 44 – please feel free to move them to wherever you need.

Thanks!

Hiyan

**Subject:** Images for additional slides

Hi Hiyan,

As we just discussed, attached are images for two new slides that I could insert into the main presentation. Both slides should have a header that states "Why Now?"

- 1) Image titled <2.9BillionGraph\_instagram\_Sept23-1.jpg> goes in one slide;
- 2) Image titled <Extinctions on islands invasives.jpg> goes on another slide.

Just after we spoke, I realized I have another slide I'd like incorporated into the presentation. Can you also insert this text into a slide in the presentation format you created? Slide is titled <Brodificoum Risks to Soil and Water Resources Slide.pptx>.

Thanks so much for anything you can do. I'll be finishing putting the presentation on Tuesday morning, so if I have these by then, that would be great. If not, let me know and I'll figure something out.
