Welcome to Marin Audubon Society

For more than 60 years Marin Audubon has worked to protect wildlife habitat in Marin, sometimes stepping in to buy land that is slated for development.

MAS also provides its members and the public many opportunities to experience the birdlife and nature of Marin County and beyond through [Field Trips and Events](#), our monthly [MAS newsletter *The Rail*](#), and three annual [Marin Christmas Bird Counts](#).

Alerts

**SPECIAL MARIN AUDUBON SOCIETY PROGRAM -
PLEASE NOTE CORRECTED TIME IS 7:00 PM**

Farallon Islands Mouse Eradication Program

Join us on July 16, 2020, 7:00 PM, for a webinar hosted by Marin Audubon Society to learn about the US Fish and Wildlife Service's Plan to restore the ecosystem of this globally important wildlife refuge by removing the introduced house mice. Attend the webinar to hear how you can help restore this unique ecosystem.

[CLICK HERE TO REGISTER - REGISTRATION IS REQUIRED](#)

Presentations will be made by scientists and land managers experienced with the Island's wildlife and the Restoration Plan:

- Gerry McChesney, Farallon Islands National Wildlife Refuge Manager, U.S. Fish and Wildlife Service
- Winston Vickers, DVM, MPVM, University of California, Davis
- Peter Warzybok, Farallones Program Leader, Point Blue Conservation Science
- Roger Harris, Certified Wildlife Biologist, Oceanic Society
- Anna Weinstein, Ocean Resources Director, National Audubon Society, as MC

Marin Audubon Society

Ashy Storm-Petrels and Leach's Storm Petrels, after the mouse population seasonally crashes, pushing the storm-petrels on a population trajectory towards extinction. Mice also eat other species. Nearly half of the world's population of the rare Ashy Storm Petrel nests on the Farallones.

A major decision is pending.
