

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

Stump Point Unit MD-16

This map was produced by the U.S. Fish and Wildlife Service from a map dated December 18, 2020, that was made effective on November 25, 2024, via Public Law 118-117. The boundaries of the John H. Chafee Coastal Barrier Resources System (CBRS) on this map are identical to the boundaries on the map adopted by Public Law 118-117. This map supersedes all prior maps depicting the CBRS boundaries in this location.

The seaward side of the CBRS unit contains the entire sand-sharing system, including the beach and nearshore area. The sand-sharing system of coastal barriers is normally defined by the 30-ft bathymetric contour. In large coastal embayments and the Great Lakes, the sand-sharing system is defined by the 20-ft bathymetric contour or a line approximately one mile seaward of the shoreline, whichever is nearer the coastal barrier.

For additional information about CBRA or the CBRS, please visit [www.fws.gov/program/coastal-barrier-resources-act](http://www.fws.gov/program/coastal-barrier-resources-act).

- System Unit Boundary
- Otherwise Protected Area Boundary (identified on the map by the letter "P" following the unit number)
- Approximate State Boundary
- 2000-meter Universal Transverse Mercator grid values
- Imagery Date(s): 2018
- Imagery Source(s): United States Department of Agriculture National Agriculture Imagery Program
- Coordinate System: North American Datum 1983 Universal Transverse Mercator Zone 18 North
