

JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

Onslow Beach Complex L05 (2 of 2) Topsail Unit L06 (1 of 2)

This map was produced by the U.S. Fish and Wildlife Service from a map dated April 30, 2021, that was made effective on November 25, 2024, via Public Law 118-117. The boundaries of the John H. Chafee Coastal Barrier Resources System (CBRS) on this map are identical to the boundaries on the map adopted by Public Law 118-117. This map supersedes all prior maps depicting the CBRS boundaries in this location.

The seaward side of the CBRS unit contains the entire sand-sharing system, including the beach and nearshore area. The sand-sharing system of coastal barriers is normally defined by the 30-ft bathymetric contour. In large coastal embayments and the Great Lakes, the sand-sharing system is defined by the 20-ft bathymetric contour or a line approximately one mile seaward of the shoreline, whichever is nearer the coastal barrier.

For additional information about CBRA or the CBRS, please visit www.fws.gov/program/coastal-barrier-resources-act.

- System Unit Boundary
- Otherwise Protected Area Boundary
(identified on the map by the letter "P" following the unit number)
- Approximate State Boundary
- 2000-meter Universal Transverse Mercator grid values
