Request

Request ID	958661
Confirmation ID	958076

Request description

I request a copy of all communications to and from FWS Director Martha Williams, and to and from Acting Deputy Director Amy Lueders, involving the potential environmental impacts on ESA-listed species and designated critical habitats of SpaceX's new water deluge system at its Boca Chica, Texas launch site. The system is sometimes called a water-cooled steel flame deflector or flame diverter. I already have a copy of the publicly released Biological Opinion.

Supporting documentation

Fees

Request category ID	media
----------------------------	-------

Fee waiver

yes

This request is made as part of news gathering and not for commercial use or for my commercial interest.

Explanation

Disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations or activities of the government.

Expedited processing

Expedited Processing

yes

Because of the public interest in SpaceX's Starship/Super Heavy program and in potential impacts on endangered species, and because of the fast pace of the commercial space industry, I believe this request meets the criteria for expedited processing.
