Amy, we will keep you updated on a daily basis, including this weekend.

Thank you,  
Imer

**Subject:** spaceX request

good afternoon. Just heard that Martha will be meeting with the Department and Assistant Sec. FWP on Monday afternoon (2 pm eastern time) and one of the topics they would like an update on is SpaceX, given the recent press on this week's launch attempt. They are particularly interested in knowing if there are any FWS needs/requests/engagement/etc that they can assist with. I have let everyone know we have not yet been able to access the site so we don't have anything to report at this time on impacts. If you have any info around resource impacts, coordination with FAA on anomaly review or overall FAA or SpaceX coordination, please provide me with any relevant info in bullet format by 9 mtn time on Monday. sorry for the short turnaround  
any questions let me know  
Hope everyone has a great weekend  
thanks
