Amy,

I spoke with Reagan Faught, Texas Parks & Wildlife Dept (TPWD) Region 2 Director State Parks on August 31 regarding request to amend existing lease to remove Boca Chica State Park from refuge management.

Reagan will revisit within TPWD proper signature authority and appropriate instrument to document. Draft is still with TPWD.

We believe that debris removal will be addressed via SpaceX anomaly response protocol. Reagan and Chris Perez were scheduled to attend an onsite demonstration of the debris removal process on Friday, 9/1.

Reagan and I could not immediately identify other items that would need another formal agreement but will continue to think on it. We did reaffirm our commitment to collaborate and support one another as things arise.

Sonny

Subject: boca chica

quick read out. I spoke with David Y last Wednesday before he was talking to his folks about the Boca Chica lease. I told him my objective was to get out of the current lease that requires us to manage the state park as if it is a NWR, but was open to everything else in terms of how we could help each other out, through an MOU or other appropriate mechanism. For example, trash collection, etc. I figure you all on the ground have the best idea what might work for efficient operations/working together and I don't want to preclude any of those ideas or want to leave TPWD in a bind with how to do day to day management. Let me know if you want to discuss.

take care.

sending map to you, Chris and Imer next
