Subject: SpaceX Follow up
Date: Thursday, September 14, 2023 7:20:57 AM

Good Morning Amy

I am following up on questions left from the SpaceX call.

1. Land Use Fee appraisal. I have spoke with Daniel Garcia. Yes, we can set up an agreement with SpaceX to take care of the appraisal, however, he stated the process would likely take 6 months. The length of time is due to the need for an agreement with SpaceX. The previous agreement took 6 months to complete

I did speak with AVSO. I did not receive a commitment on time frames. SunZia scope of work is set to be completed next week. The time frame has been just over 2 month from start to finish with SunZia. I would recommend we go forward with AVSO.

2. SpaceX access to the 90 acre parcel of land. Justin will be working to determine access. Justin will be provide the information to you on or before Monday in preparation for the Tuesday meeting.
3. SpaceX right-of-way permit. Realty/Refuge has an excel spreadsheet on the timing of the right-of-way action. Yvette will be updating this spreadsheet. I will forward the spreadsheet forward with updates on or before Monday.

I am available if you have questions.

Sincerely,
Heather
