Good to see you both this week—hope you had safe and uneventful travels home. Just got off the phone with Dan Murray of FAA. He let me know that the BA they provided on Monday they consider their final version (I know there was some discussion Tuesday that we were hearing FAA was going to be sending us another version but I confirmed that is not the case). I also told him we need to get a copy of the mishap report, or some sort of summary, so he was going to followup with his team on that. Don't know if you have had any success getting that via SpaceX. Let me know if you need me to follow up with Gwynne. Let me know how your call with Matt T went and where you think we are in the process.

thanks!
