Amy,

Attached are our comments on the WR. Sorry they are so late in the day. Hope I didn't hold you up too much. I did not put on letterhead as you said it did not have to be in an official letter format.

Mary

I'm trying to compile all comments tonight, so before then if possible.

Thanks!

Amy

The BA is correct. I will revise the WR accordingly. It is a total of 3 per launch campaign (two test fires and one launch).

Amy

Subject: WR/BA clarification

Hi Amy,

Reviewing WR and states under Operation on page 6 "Each launch is associated with an estimated three static fire engine tests." However, the BA, page 3, for the BCO states 2

static fires. "Each launch is associated with an estimated two static fire engine tests."

It would make sense to be 3 if deluge system may operate up to 30 times a year, but just for clarification so I can correct in BCO.

Mary
