

2025 Midwinter Eagle Survey

January 14, 2025

We documented 245 eagles! This broke the record for the most eagles counted during a mid-winter count, with 2016's record of 232 being dethroned. Of the 245 eagles, we had 1 singular golden eagle (congrats to the Little Blackwater River group), 19 "unknown" eagles, and 225 bald eagles - 178 adult and 47 immature.

Please see below for the location breakdown of this year's count, and the graph for the annual total eagle count going back to the 1980's.

1/14/2025	Bald Eagle		Golden Eagle			
Non-roost	Adult	Imm.	Adult	Imm.	Unk.	TOTAL
Dragon Swamp	13	12	0	0	0	25
Shorters Wharf	10	4	0	0	0	14
Parsons Creek	2	0	0	0	0	2
Wildlife Drive	16	4	0	0	0	20
JDs	7	5	0	0	2	14
Little Blackwater River	6	0	0	1	5	12
Kuehnle North	27	2	0	0	5	34
Kuehnle South	19	6	0	0	0	25
Tower Site	7	5	0	0	1	13
Rt 335 Bridge	25	8	0	0	4	37
Jarrett East	12	1	0	0	0	13
Decoursey Bridge	16	0	0	0	0	16
Jarrett West	16	0	0	0	2	18
Buttons Neck	2	0	0	0	0	2
TOTALS	178	47	0	1	19	245
