Hi Amber,

I would proceed with all of the edits you've received and a mock format for relocation sites and contacts. It'd be nice to get that back out to Hilary and then to the forests for a second review in the next couple of days.

Thanks!

Jennifer

Hi Jennifer,

I wanted to touch base about the relocation communication plan. The only forest I have not received anything from is the Bitterroot. Should I continue to move forward without their information? Also, do you want all the relocation sites on the version I send over or is it alright just to have a mock format? Everyone sent their relocation sites over with a little bit of a different format, so this might be something we work on continuously. I was thinking once myself and/or other bios have checked out the site we can do a description, mountain range etc. that would help. We're so close!

Thank you.

Unfortunately the way it goes with so many people. Hopefully we don't have any more come in.

Oh man, I should have waited to add comments and adjustments :).

Thanks Jennifer!

Information from the HLC. Sounds like they'll have a few more folks reviewing the comm plan. She also emailed that the Bear Trap site is no longer accessible so please remove it from the list they sent.
Thanks!

Hi, good morning Jennifer!

Attached is the spreadsheet with the potential sites for our Forest that include areas outside of the recovery zone west of I-15 and the Elkhorns and Big Belts. I've also added cell phone info to the draft plan. Just to re-emphasize a few points: these are potential sites pending District Ranger approval prior to any release. Also, I would like to have the Rangers and Forest Supervisor review the communication plan. Should I have them review this version?
Thanks!
