Hi All

The ranch is located at the end of (b) (6). The code to get in is (b) (6) for September and it switches to (b) (6) for October. We have an area of a couple square miles we can control access to with a gate. We have some guys around today to help set up. The map below shows an orange line leading to the carcass drop site. There is a gate about a mile before the carcass drop site that we will keep closed. The code for that gate is (b) (6). I put a blob on the orange line about a mile north of the entrance gate. We are going to leave a trailer there for drop offs of extra carcasses. Our crew can take them in if you let us know when you drop them.

Thanks!

(b) (6)
