

Peer Review Plan for the Clara Hunt's milkvetch (*Astragalus clarianus*) Species Status Assessment Report

About the Document

Title: Species Status Assessment Report for Clara Hunt's milkvetch (*Astragalus clarianus*)

Purpose: The Species Status Assessment (SSA) report will inform the U.S. Fish and Wildlife Service's preparation of a recovery plan for Clara Hunt's milkvetch (*Astragalus clarianus*). The information in the SSA report is likely to be influential scientific information.

About the Peer Review Process

Estimated Peer Review Timeline: June 2025 – September 2025

Type of Peer Review: The Service will solicit comments on the SSA from independent scientific reviewers via individual letters. Peer reviewers will submit comments in written form.

Anticipated Number of Reviewers: The Service will request review from at least three individuals.

Reviewer Selection Method: In selecting peer reviewers, we will consider four key factors: expertise, balance, independence, and avoidance of conflict of interest. We are not seeking nominations for peer reviewers from the public.

Necessary Expertise: Peer reviewers will have expertise on Clara Hunt's milkvetch or related taxa, the ecosystems in which the species lives, the threats to or management of the species or its habitat, or the analytical methods we used.

Peer reviewers will be asked to comment specifically on the quality of any information and analyses used or relied on in the document; identify oversights, omissions, and inconsistencies; provide advice on reasonableness of judgments made from the scientific evidence; ensure that scientific uncertainties are clearly identified and characterized, and that potential implications of uncertainties for the technical conclusions drawn are clear; and provide advice on the overall strengths and limitations of the scientific data used in the document.

About public participation

We anticipate making the draft recovery plan available to the public around November 2025 at <https://www.fws.gov/program/recovery/recovery-plans>. At that time, we will provide an opportunity for public comment on the recovery plan.

This peer review plan is made available to allow the public to monitor our compliance with the Office of Management and Budget's Final Information Quality Bulletin for Peer Review. The public is invited to submit comments on this peer review plan by contacting the agency person(s) listed below.

Contact

Summer Howland (summer_howland@fws.gov), Fish and Wildlife Biologist, U.S. Fish and Wildlife Service, Sacramento Fish and Wildlife Office.

Dan Cox (dan_cox@fws.gov), Supervisor, Division of Recovery and Conservation Planning, U.S. Fish and Wildlife Service, Sacramento Fish and Wildlife Office.
