Notes: Standard Operating Procedure 13.0 (Control of Mexican Wolves) was finalized on 10 October 2005, however, management-related wolf removals throughout the remainder of 2005 were conducted under the auspices of an earlier draft version. SOP 13.0. guidelines were authorized through December 2, 2009.

“Other” removals include re-pairings, cross-foster of wolf pups, wolf pup removal due to adult abandonment, veterinary care, and genetic management of population.

^a Includes adult wolves and dependent pups; see Annual Report for additional details.

Mexican Wolf Population Statistics

Outcomes of Mexican wolf management removals 1998-2024.

Data Current as of December 31, 2024

Following removal from the wild, an animal's individual contribution to recovery is evaluated when making decisions on the disposition (translocate into the U.S. population, Mexico population, or retain in the SAFE population) of the animal.
